Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-20 are rejected under 35 U.S.C. 102(b) as being anticipated by any of Corson (2512310), Robbins (4816316), Harmon et al (3746607), Spamer et al (4565725) or Bustos (5614288).

All of the above teach an article having a body wherein the overlapping portion and third and forth edges are equal to approximately the maximum thickness of the body (i.e. from the bottom surface of the article to the top of the rib, from paragraph 13, second sentence of the Specification). A flap portion, which is less than the thickness of the body, is included along the first edge. Refer to figures 1 and 2 in Corson showing ribs (12) and what one can consider a flap portion (i.e. thinner than the maximum thickness) at either end of the sheet. A section including three ribs (the applicant shows three ribs in overlapping section (24) in figure 2) along either the left or right edge in figure 1 or 2 can be considered the overlapping portion that corresponds to the applicant's overlapping section. All of the other references show a similar type of arrangement as described above. Refer to figures 1 and 3 in Robbins. Refer to figures 1-3 in Harmon et al. Refer to figure 3 in Spamer et al. Refer to figure 1 in Bustos.

Response to Arguments

3. Applicant's arguments with respect to claims 1-20 have been considered but are moot in view of the new ground(s) of rejection. The examiner notes the applicant indicated that claim 7 was amended to include the flap being less than the maximum thickness of the unit, however, claim 7 does not contain said limitation. Also, the applicant refers to the unit along the three edges not having the flap as equal to the maximum thickness. This recitation is also not in the claims. The claims only refer to the overlapping portion as equal to the maximum thickness (along with the third and forth edges). This overlapping section, as seen in figures 2-6 contains approximately three ribs and has a section that appears to correspond to a thinner section (16d) which resembles a shorter in length flap than flap (22).

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
